

The circulation of The Review covers the field like the evening dew; several times larger than the combined newspapers of High Point, being read in practically every home in the city and in the suburbs. Advertisers take notice.

# THE REVIEW

"High Point for High Point," that's the slogan. Keep your money in High Point; trade with High Point merchants; buy everything you can in High Point at all times; that's the foundation for a Greater High Point.

The Review is read and appreciated by that large body of people who buy four-fifths of the goods sold in High Point---the laboring people

## That If--

IF you were going away for a short time you would make some arrangements for your family.

Have you got them provided for in case you take that long unknown journey

The PRUDENTIAL monthly income policy makes the best provision.

Jack Taylor

## Malaria or Chills & Fever

Prescription No. 666 is prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, and if taken then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c

## GR. BRITAIN LANDS 100,000 MEN AT FRENCH PORTS

### Kaiser Says: "With God and Bravery He'll Win."

### Crown Prince Reported Se- riously Wounded - Great Battle May Now be Raging War Summary.

#### LATEST WAR NEWS.

It is reported that the Crown Prince of Germany has been seriously wounded.

Japan's ultimatum has not as yet been answered by Germany.

Americans must keep cool heads or it might cause us trouble.

It is Japan's intention to eliminate from China the root of German influence.

From the war zone come only brief reports of the activities of the vast German and allied armies opposing each other.

The French officially report that the Germans have abandoned Saiebourg. The Belgians are said still to be intact and a Brussels dispatch says the German advances toward Belgian center seems to have been checked.

The French troops are in contact with the Germans, but there is no important engagement to report, says an official announcement of the French embassy at London.

A British expeditionary force numbering more than one hundred thousand has landed at French and Belgian ports and doubtless is well on its way to form a junction with its allies.

A significant statement is issued by the British official press bureau to the effect that desultory fighting has occurred between the British and German reconnoitering cruisers.

A certain liveliness is apparent in the Southern area of the North Sea, the statement adds.

There are rumors of a naval engagement about 100 miles off Harwick in the North Sea.

In a stirring message to the troops King George says:

"Duty is your watchword and I know your duty will be nobly done."

The ominous dispatch from Brussels telling of the moving of the seat of the Belgian government from that city to Antwerp, tells its own story, that the German army is gradually throwing a net work around the Belgian capital which must sooner or later fall in the hands of the Kaiser's men. The British and French armies are supposed to have each a Belgian territory, and one of the greatest battles of modern times it appears is about to be staged, the outcome of which no man can prophesy. This battle may in a measure decide the destinies of more than one nation and change the map of Europe.

Like the evil-looking clouds that appear on the horizon, just before the event of a western tornado, dealing death and destruction in its wake, so the armies of the embattled powers are lined up on the plains of Belgium ready for the titanic conflict, the inevitable battle, the sound of which will be heard around the world. Nations are waiting in breathless suspense for word of the great naval engagement which is bound to occur between the warring powers in a very short while. The battles fought so far have been mere skirmishes and will not be thought of when the real great battle occurs.

A report from Berlin states that Emperor William and three of his sons have gone to the front which has occasioned great outbursts of patriotism in the German capital.

The Germans have inflicted great loss on the French in the fighting near Namur and Dinant.

A report of the naval fight in the Adriatic coming from Rome, states that the French sunk three warships of the Austrian navy.

The seat of the Belgian government has been moved from Brussels to Antwerp.

No reply has yet been received by Japan to her ultimatum to Germany and the sudden entry of the island kingdom into the European war situation is a factor which may increase the range of the conflict. The American government will observe a policy of non-interference as to conditions prevailing in the Far East.

The Russian army is invading

Austria and fierce fighting has been reported between the two armies.

## DARRANZA'S ENTRY ONE OF TRIUMPH

Elaborate Preparations: Belg Made in Mexico City for Reception of New President--Have National Holiday.

Mexico City, Aug. 17.--The banks of the capital which closed last Tuesday probably will be open tomorrow. The question of a circulating medium is causing some uneasiness in business circles.

A commission composed of representatives of the clearing house banks has asked General Carranza to define the attitude of his new government as to the present legal tender. It is believed a provisional ruling will be made tomorrow, thus permitting a resumption of banking operations.

Wednesday has been declared a national holiday in honor of the entry into the capital of the main body of the Constitutionalist army and General Carranza, the new provisional president. Elaborate preparations have been made for the inauguration of the new regime.

In Memory of Madero.

Memorial services were held today over the graves of former President Madero and former Vice-President Suarez, who were killed February 23 in the revolt which placed Victoriano Huerta in the presidency. The services were conducted by the Constitutionalist general, Obregon, members of his staff and representatives of the Constitutionalist army. After the eulogy was pronounced the graves were decorated with wreaths and the troops fired a salute of twenty-one guns.

## UNPATRIOTIC--UNLOYAL HYPOCRISY.

Some of the very people who talk the loudest about trading at home, proceed to stab home enterprises by buying goods made in other states and yet these people say I am for High Point first, last and all the time. The Review each week preaches the doctrine of "trade at home" and practices what it preaches too.

As an instance of people who continue to hurt their town by buying flour made in other states when the High Point Milling Co., of this city manufactures from the finest of white grades down to the medium, while their feed stuffs are the best. This company helps support the town, buys its goods here, gives full weight and unadulterated goods, while outside mills do not contribute a thing to help the town but take money away from it never to return. Isn't it time those citizens who are not loyal become so. The High Point brand of flour is good enough for any one and no one is too good for it.

Watch out next week for another sermon on disloyalty.

And as was expected the oblonged eyes of the yellow peril commonly known as the Jap, squinted nervously and stood it as long as possible. The result a practical declaration of war on Germans if things don't go right by Sunday, the day Japan set to gobble up Germany's possession close to her.

Dr. G. F. Duncan has returned from New York where he was called on account of the illness of his wife, whom he left better.

Ab. Holton attended the "Bull Moosers" at Greensboro Tuesday and came back with greater visions than ever.

A fine residence is that O. A. Kirkman is building.

## ABOUT WOMEN'S DRESS.

It cannot be said too often or too plainly that a "fast" woman, no matter how carefully she refrains from taking the last logical step or how prominent her social position, is inevitably a vulgar woman, and the so-called "fast-set" is always near the edge of the moral tragedy and of public scandal. It is not solely a question of degree; it is also a question of direction. The woman who plays with passion is in the same path with the "most tragic figure in history" whom she passes with her skirts drawn about her; they are both unclear--the difference between them is not one of kind but of degree.--Outlook.

## Don't Let Them Pass.

Favorable opportunities do not usually stand at the door knocking for admission, but are more frequently caught trying to pass us by many times on the run.

## ARTIC ICE AND COAL COMPANY

We direct your attention to this issue to the ad of the Artic Ice and Coal Company, which quotes five grades of good coal at moderate prices, good until Nov. 1st, 1914. This company which succeeded the High Point Ice and Fuel Company, is doing a splendid business under the management of Mr. J. S. Lee who knows how to please the people and get the business all along which are the elements entering into a successful business career. The company has made a record-breaking business on ice this season and will continue to serve the "frozen blocks" in any quantity desired. This week as the cooler months draw nearer (and the supply of coal must needs be laid in, the lowest prices on black fuel is being quoted and it will pay you to do business with the Artic and its manager who is ever alert to do the best he can by you--at all times.

## CHARTER OF N. C. ASSOCIATION

Washington, D. C., Aug. 17.--The National Currency Association of North Carolina is ready to begin the business of bringing into the State between five and six million dollars of emergency currency under the Aldrich-Vreeland currency law. The charter of the association was approved today by Secretary McAdoo and all that is now necessary to receive any financial stringency North Carolina might feel is to make application for the money.

## CHARTER ACCEPTED.

Joseph C. Brown, of Raleigh, president of the association, came to Washington today accompanied by W. A. Hunt of Henderson; A. W. McLean of Lumberton; and Gen. Julian Carr of Durham. They immediately submitted the North Carolina association charter to Treasury Department officials. Acceptance was a matter of course. Individual banks can now make application to the State association, submitting its collateral to the association. The association will pass on the security and list them for the Treasury Department, which will, in turn pass upon them. The Treasury will act the same day applications are received and mail the money immediately direct to the banks which have asked for it.

Mr. and Mrs. D. C. Leonard and son of Lincolnton, N. C., spent Sunday and Monday here visiting friends and relatives. They are on their way north where Mr. Leonard will buy goods for his store at Lincolnton. Mr. Leonard was at one time manager of the Leonard-Beavans Stamey Co., this city, the firm still bearing his name and managed now by Mr. Beavans. He reports business good in his new home.

Mr. T. W. Hill of Washington was here Tuesday attending the Grand Encampment of Odd Fellows.

## STATE ENCAMPMENT MEETS HERE.

The Grand Encampment of the State of Odd Fellows met here Tuesday in the Odd Fellow's hall, Sherrod building. A goodly number were present from all over the State. Two sessions were held, one in afternoon and one at night. The visitors were heartily welcomed to the city. Interesting meetings were held.

## DEEDS FILED THIS WEEK.

The following deeds have been filed with the register of deeds:

The High Point Saving and Trust company, executors of E. R. Carr, to R. E. Blair, property in High Point, \$5,000.

Roland Park company to Calista W. Carr, property in High Point, \$1.

Edwin J. Burns et al. to C. V. J. nes, property in High Point, \$40.

The People's Realty company to Miss M. J. Clark, property in High Point, \$525.

W. S. Ward to A. B. Grayson, property in High Point, \$300.

A. B. Grayson to A. C. Jones, property in High Point, \$10 and other valuable considerations.

State Councilor J. W. Sechrest, A. F. Moon, W. T. Anderson and J. O. Conner are attending the State Council meetings at Durham this week. Mr. Sechrest has made a splendid record during his term, adding 3500 members to the order. There is no man in the State Council better liked.

Dr. J. T. Burrus one of the refugees of the war disturbance, landed in Canada this week and will arrive home in a few days.

Our splendid reservoir should be covered with close net wire to prevent any one throwing refuse matter or dead bodies or the like therein as has been the case in some towns. Let's double safe guard our health.

## DELIGHTFUL VISIT TO DELIGHTFUL FAMILY.

Sunday afternoon the editor and his family had the pleasure of visiting the home place of Mr. and Mrs. Jesse Lee Armfield, one mile below Oakdale Cotton, Mill, along the river. A very pleasant afternoon was spent with these hospitable people. Living with them are Mr. and Mrs. C. C. Covington, daughter and son-in-law respectively, also Miss Clayton a granddaughter, all of whom are thoroughly imbued with genuine Southern hospitality. The Armfield home is situated on a very pretty knoll, overlooking fine meadows and fields and surrounded by everything that goes to make an ideal home of contentment and plenty.

Mr. Covington is in charge of the farm and making a success of it. Fine fields of tobacco, corn, watermelons, etc., greet the eye and pure crystal springs and deep wells and branches furnish an abundance of good water for drinking and domestic purposes. Fruit trees, grape vineyards, plenty of good milk and butter with all kinds of vegetables furnish an abundance of good things to nourish the body for its daily toil. Fine Jersey cows, imported stock from the farm of Gould, with plenty of good pastures and feed and the milk and butter sold in High Point by Mr. Covington has the brand of pat excellence stamped thereon.

The water from cool springs down the hillside keep a constant stream through the milk house and makes things fresh and cool. It is as has been said an ideal place to live and Mr. Armfield has been so well contented that he has never moved one inch from there where he first saw the light of day 66 years ago and we don't blame him. He has a wealth of contentment and pleasure surrounding him and happy should be the man so blessed. A large rock requiring the work of three horses to pull is placed at the pump in the barn yard, it has been there nearly one hundred years and will continue to do service one thousand years and more longer if not despoiled by some one. It was a pleasure to watch the cows sip the cool water from this rock basin, and note that even a dumb brute showed signs of appreciation.

In the watermelon patch there is a huge melon weighing about 70 pounds and which was brought to market this week. There are scores of others ranging in weight from 40 to 60 pounds. Of course we sampled the red sweet meat of the melons as well as other good things to eat while there. The children had a great time riding the little Shetland. But enough for this time. Success and continued happiness to all.

We call attention to the ad of the Home Banking Co., in this issue. It contains good advice and is so optimistic as to make the pessimist feel ashamed. Mr. Crowson is talking "good horse sense" using the verbiage of the street.

Labor Day will be observed on a large scale this year at Spencer.

Notwithstanding the war scare, the money bug-a-boo, etc., High Point continues to build and plan for a bigger and better city in every way. One hundred thousand dollars in new buildings are now being erected throughout the city. The white way is a certainly, the mammoth pure water reservoir is complete, and other improvements planned. Thus the best city in the United States keeps the even tenor of its way.

A new front is being put in at the Cannon-Fetzer Co., and the entrance lowered a little.

Chief of Police E. A. McGhee is building a house.

Siceloff Hardware Company is making an addition to its store room.

A. E. Tate is building two nice houses.

O. A. Kirkman continues to add his share to the upbuilding of the city.

W. C. Beavans left Saturday night for the northern markets to buy a line of fall and winter dry goods, notions and ladies ready-to-wears for the Leonard-Beavans-Stamey Co.

Miss Morris, related to the family of C. A. Davis and D. H. Wrightenberry, has been visiting here for the past week. She will return to her home in Chester, S. C., the latter part of next week.

Mr. and Mrs. David Welborn of Route 2, Thomasville, spent Saturday night and Sunday morning at the home of his brother, Phillip Welborn, going to the home of C. A. Davis for dinner Sunday.

Dr. G. F. Duncan has gone to White Plains, N. Y., on account of the serious illness of Mrs. Duncan, who is visiting there.

Mr. R. J. Rogers and children of Jessup, Ga., who have been visiting at the home of Mr. and Mrs. W. J. Armfield, grandparents of the children, have returned home.

High Point leads the way in the real White Way.
